COMMAX is Trademark and Registered of commax co., ltd. and accessories are manufactured by COMMAX Co., Ltd.

## Important Safeguard

**Damage Requiring Service** - Unplug this equipment from the power source and refer servicing to qualified service personnel under the following conditions:

- when the power supply cord or plug is damaged;
- if liquid has been spilled or objects have fallen into the unit;
- if the equipment has been exposed to rain or water;
- if the equipment has been dropped or otherwise damaged;
- when the equipment exhibits a distinct change in performance - this indicates a need for service.

**Water and Moisture** - Do not use this product near water, for example, near a bath tub, wash bowl, kitchen sink, or laundry tub, in a wet basement, or near a swimming pool, and the like.

**Accessories** - The product may fall, causing serious injury to a child or adult, and serious damage to the appliance. Any attaching of the appliance should follow the manufacture's instructions, and should use a attaching accessory recommended by the manufacturer.

**Object and Liquid Entry** - Never push objects of any kind into this product through openings as they may touch dangerous voltage points or short-out parts that could result in a fire or electric shock. Never spill liquid of any kind on the product.

**Overloading** - Do not overload power outlets and extension cords as this can result in a risk of fire or electric shock.

**Lightning** - For added protection for this product before a lightning storm, or when it is left unattached and unused for long periods of time, unplug it from the wall outlet and disconnect the other system. This will prevent damage to the product due to lightning and power-line surges. Be sure your antenna is properly ground. If you live in an area heavily prone to lightning storms, it is recommended that you invest in power-line, telephone-line, RF cable and Actuator/Polarization surge protectors to protect your other system from possible damage.

### Important Safeguard

**Service** - Do not attempt to service this product yourself as opening or removing covers may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel.

**Replacement Parts** - When replacement parts are require, be sure the service technician has used replacement parts specified by the manufacturer or having the same characteristics as the original part. Unauthorized substitutions may result in fire, electric shock or other hazards.

**Safety Check** - Upon completion of service or repairs to this product, ask the service technician to perform safety checks to determine that the product is in proper operating condition.

**Power Line** -The commax door camera system should not be located near overhead power lines or other electric light or power circuits, or where it can fall into power lines or circuits. When installing a door camera system, avoid dangerous contact with power lines or circuits.

**Attachment** - Do not use attachments not recommended by the product manufacturer as they may cause hazards.

**Safety Check** - Upon completion of service or repairs to this product, ask the service technician to perform safety checks to determine that the product is in proper operating condition.

**Power Sources** - This equipment should be operated only from the type of power source indicated on the marking label.

**Grounding** - This product is equipped with a polarized alternating - current line plug. This plug will fit into the power outlet only one way. This is a safety feature. If the plug should fail to fit, contact your electrician to replace your obsolete outlet.

**Power Cord Protection** - Power- supply cords should be routed so that they are not likely to be walked on or pinched by items placed upon or against them; pay particular attention to cords at plugs, convenience receptacles and the point where cords exit from the equipment.

**Overloading** - Do not overload power outlets and extension cords as this can result in a risk of fire or electric shock.

### General Features

There is no where better than surveillance home, factory, office to make your house a security home. COMMAX surveillance system are here to provide positive visual and convenience life.

#### General Characteristics

The system consists of :

- For 12V DC Operation ( power supplied from the monitor).
- Recess-Flushed Box
- Most Easy To Installation
- Minimum Illumination : 0 Lux (300mm from the camera)
- Operating Temperature : -10°C ~ +40°C
- A Wide Variety Of Door Camera System To Suit Various Applications Are Available.
- Lens Allows For Easy Installation And Utilization Flexibility.
- With its covert design, the DRC series are suitable for Bank, Hotels, Apt, House and other commercial facilities.

### Preparation

  - The Connector will fit into the power outlet only one way. If you are unable to insert the connector fully into the outlet, contact your dealer.
- 
- On Installation**
- Allow adequate air circulation to prevent internal heat build up.
  - Do not place the unit on surfaces (rugs, blankets,etc) or near materials(curains, draperies) that may block the ventilation slots.
  - Do not install the unit near heat sources such as radiators or air ducts or in a place subject to direct sunlight, excessive dust, mechanical vibration or shock.
  - Keep the unit and glass away from equipment with strong magnets, such as a microwave oven or large loudspeakers.
- 
- On Operating**
- When the unit is not in use, turn off the power to conserve energy and to extend its useful life.
  - Clean the cabinet, glass and controls with a dry soft cloth, or a soft cloth lightly moistened with mild detergent solution.
- 
- On Cleaning**
- Do not use any type of solvent, such as alcohol or benzene, which might damage the finish.
- If you have any questions about this unit, contact your Camera dealer.*

### Location and Function of Controls

- ❶ **Microphone**  
When Turn on the [CALL] button on the panel, and conversation with residents.
- ❷ **C.C.D. Camera Lens**  
Built-in Black & White C.C.D. 1/3" lens (for DRC-22BA/22BAN) and Color 1/4" C.C.D lens (for DRC-22CA/22CAN).
- ❸ **Camera Protection Window**  
Prevent the scratch from the other matters.
- ❹ **Speaker**  
Aural from the resident.
- ❺ **Calling Button**  
Turn on the [CALL] button if desired calling.
- ❻ **Front Panel**  
No surface on corrosion material.
- ❼ **Name Card (Model : DRC-22BAN/22CAN).**  
Indicated in resident address.
- ❽ **Screw Hole**  
Use the assembly panel. **Note :** Before connection, contact to technical engineer.

### Location and Function of Controls

Rear View

- I Angular Field Of View For Camera**  
Adjust the angular field of the camera for manually.
- II Connection Wire Release**
- III Connection Terminal**  
Use the connection with your residents.  
(Non-polarity)

### Attaching Consideration

#### When selecting the location for attaching your unit, please remember...

- Bottom should be of sufficient strength to permit attaching.
- Allow adequate space on the both side of the unit for proper ventilation access to cable and unit for viewing easy.
- For angular field of camera view adjust by manually be sure there is sufficient space behind the unit to adjustment to angular field of view its position.

- The area directly below the unit should not be used for cooking radiator or by other appliances generating heat or steam.
- Hold the unit and in various locations while you think through what will be the most convenient location in your surveillance place. Keep in mind your normal work pattern especially the use of other counter top electrical appliances.
- Try your unit in various location in the Hotel Super Convention Department Store Factory Apt to find the area offering the best possible reception.

## How To Installation

### Connection Wires :

1. Connection wires to inside unit on the side of monitor.  
(Notice : Checking to screw dimension M3 X 30mm : 2 pieces-included).
2. Connection Terminal : Check the wire connection terminal level of the side of unit (Refer to wiring diagram).

### Notes On Connecting

- Power plugs of connected equipment must be disconnected before installations.
- For details of wiring and operation of equipment to be connected, refer to their operation manuals.

## Notes On Use and Installation

### Do Not Aim The Camera At The Sun

Do not aim the camera at the sun or point it at the sun even if you are not shooting.

### Do Not Shoot Intense Light

Framing intense light such as a spotlight may cause bloom or smear. A vertical stripe may appear on the screen. However, this is not a malfunction.

### Treat The Camera With Care

Do not drop the camera or subject it strong shock of vibration. Otherwise, the camera may malfunction.

### Never Touch Internal Parts

Do not touch the internal parts of the camera other than that parts specified. Otherwise, the camera may malfunction.

**Plug off when you do not intend to use the camera for a long time.**

### Do Not Splash Water On The Camera

Install the camera where the camera can be kept dry. If the camera gets wet, turn off the power and contact your dealer.

### Install The Camera Where No Video Noise Appears

If cables are wired near electric lightning wires or a TV set, noise may appear in images. In this event, relocate cables or reinstall equipment.

### Check The Ambient Temperature And Humidity

Avoid using the camera where the temperature is hotter or colder than specified. Otherwise, the quality of images may deteriorate or internal parts may be affected. Special care is required to use the camera at high temperature and humidity.

### Should You Notice Any Trouble

If any trouble occurs while you are using the camera, turn off the power and contact your dealer. If you continue to use the camera when there is something wrong with it, the trouble may much worse and an unpredictable accident may occur.

### Troubleshooting Guide

#### Before You Call

Try the troubleshooting guide on the following pages. If you still can't solve your problem, try one more thing before you call.

1. Attention to your unit is operating to the DC receptacle.
2. Do not disassembly before for qualified personnel.
3. Make sure that connector the unit back in and try your procedure again as block diagram.

#### Getting Help

If you still can't correct an operating problem, contact your dealer. If your dealer is unable to solve your problem, contact Commax Customer Service. **Please don't open the cabinet and attempt to repair the unit, as this will void your warranty.**

Unplug the unit and refer servicing to qualified service personnel when:

- The power supply or plug damaged.
- The unit has been exposed to rain or water.
- A solid object or liquid has fallen into the unit.
- The unit exhibits a distinct change in performance or will not operate normally.
